## 在校经历

### 国家级大学生创新创业项目 | 机器人手臂视觉标定

Jan. 2018 – Present | Dalian, China

- 作为项目负责人，同另外两位队员进行机器人视觉标定工作和算法优化。

### WEGEEK 微信小程序黑客马拉松大赛 | “时间叉叉” 小程序

December 2018 | Beijing, China

- 同另外两位队友一起开发了一款“预约大伙共同时间”的效率小程序。

### 卡迪夫大学 | BIG DATA & HPC SUMMER SCHOOL

July 2018 – Aug. 2018 | Cardiff, UK

- 学习机器学习，大数据和高性能计算等知识，并成功完成了最后的 Hackathon 任务。

## 个人项目

### JIROOS 玩具级-操作系统 | C++

实现...

### DONACO Aug 2018 – Sep 2018

Donaco is an Imperial College London based startup that aims to facilitate online donations.

### ALKANZA WEB Oct 2017 – Mar 2018 | Tintash, Lahore.

A fin-tech web app. I worked on its front-end side using Reactjs and Redux.

### CHATKOO July 2017 | BuzzBlare, Lahore.

Chatkoo integrates multiple messaging platforms in a single place. I worked on some specific modules of the front-end side using Reactjs and Redux.

### MOBERRIES Jul 2016 – May 2017 | BuzzBlare, Lahore.

MoBerries is a revolutionized form of old-fashioned recruitment business. I have worked on its admin panel's front-end using Reactjs and Redux along with Material-UI for an amazing look and feel.

### PLAYVEN Jul 2016 – Nov 2016 | BuzzBlare, Lahore.

Playven is the easiest way to find your nearest sports venues and book a court. I worked on Reactjs and Redux version of this app.

### OPTICAL DICTIONARY & VOCABULARY TEACHER Aug 2015 – June 2016 | FAST-NUCES, Lahore.

This Mobile App provides a user with the ease of querying a dictionary. The user just has to focus the camera of his/her smart-phone over the word encountered and the application will show its' meaning. I worked on its AI part, implementing an algorithm to classify letters.
